Comments: *The table on the customer needs slide is not very clear. It took a long time to go through that slide so I suggest to split it into 2 slides.*  
*The future plan is very specific, which is good.*  
 One thing the group did particularly well: *The numbers for problem design are very good.*

One thing that could be improved: *Some slides contain too much information.*

DURING the presentation, each student is to write down ATLEAST 2 questions that they would like to ask each presenting group. These will be distributed to teams

Team Name: Joint Effort.

Question 1: Do you have unit cost for the kind of product in the market?

Question 2: Could you describe in detail how the system works? like in the electronic aspect.
